ABOUT ME

Front-End Developer with a strong passion for building responsive and user-friendly websites and web applications. Proficient in HTML, CSS, JavaScript, and modern libraries and frameworks such as React. Known for delivering clean and efficient code, with a continuous drive to stay updated with the latest technologies. Eager to contribute to innovative projects and thrive in dynamic, fast-paced development environments.

EDUCATION

Bachelor of Commerce, Accounting Department - Grade (Good) Dated 2023

Zagazig University - Egypt.

PROJECTS

YouTube Clone

- A mini YouTube clone application built using React, featuring dynamic video content fetched via the YouTube API. The project includes a homepage showcasing trending videos and a video detail page with full routing functionality and responsive design.

- [Live Demo](#)
- [GitHub Repository](#)

Amazon Clone

- An interactive Amazon-style e-commerce web application designed to simulate a modern online shopping experience. The app includes detailed product pages, a functional shopping cart, and efficient category filtering. It also features bilingual support (Arabic/English), dark/light mode, and pagination to ensure a smooth and user-friendly interface.

COVER LETTER

Dear Hiring Manager,

My name is Youssef Eraky, and I am writing to express my strong interest in joining your esteemed team as a Front-End Developer. With a deep passion for web development and hands-on experience building dynamic, responsive applications, I am confident in my ability to bring both technical expertise and creative problem-solving to your organization.

Over the past few years, I have honed my skills in HTML5, CSS3, JavaScript (ES6+), and TypeScript, while specializing in modern frameworks like React.js. I have built and deployed several real-world projects, such as:

- YouTube Clone – featuring dynamic API integration, routing, and a modern UI.
- Evently – a responsive event website showcasing schedules, speaker profiles, and registration features.
- Amazon Clone – an interactive e-commerce platform with shopping cart functionality, category filtering, bilingual support (Arabic/English), dark/light modes, and pagination.

Through these projects, I have gained extensive experience with REST APIs, state management tools like Zustand and Context API, as well as modern design libraries such as Tailwind CSS and Bootstrap. My development workflow is supported by tools like Git, GitHub, VS Code, and Chrome DevTools, ensuring high-quality code, efficient collaboration, and performance-focused results.

What truly drives me is the challenge of turning complex problems into elegant, user-friendly solutions. I value clean and maintainable code, accessibility, responsiveness, and a seamless user experience. I also strive to keep up with emerging technologies and best practices, and I enjoy working in fast-paced environments where continuous learning and innovation are encouraged.

I am enthusiastic about the opportunity to contribute to your team and bring my front-end development expertise to impactful projects. I believe that my strong foundation, combined with my eagerness to grow and adapt, make me a solid candidate for this role.

Thank you for taking the time to review my application. I would be honored to discuss how I can contribute to your organization's success.

Thank you in advance for your consideration.

Kind regards,

Youssef Eraky
